LINE OF KICKING PROPERTY OWNERS HEARD BY BOARD

Last Protestant Gets Hearing by Board of Equalization; Will Make Personal Investigations Today.

The county commissioners, who have been sitting as a board of equalization, had heard all complaints against alleged high assessments by shortly after 4 o'clock yesterday afternoon. Their work has not been finished, however. They took several cases under advisement and have yet to pass upon them.

The board today will inspect property of complainants whose protests they asked time to consider. This will be completed probably today. The board will render its decision in all cases by tomorrow. It is expected about 140 cases were heard in all and the board acted upon most of them at once, allowing very few reductions.

Alfred Grunfeld, chairman of the county board, yesterday entered in protest against the valuation of his property. His residence and the lots it stands upon are assessed at \$12,960 and the building and lots owned by Grunfeld Brothers, at First street and Gold avenue, at \$12,055. Mr. Grunfeld said anyone who wanted to buy it, could have it for \$12,500 and the last at \$10,000.

Max Weiss, vice president of the Charles Hirsch company, asked the reduction of the assessment of his house and lots from \$20,000 to \$12,000 and the cutting of the valuation of the life company's building from \$40,000 to \$33,000. These cases were taken under advisement.

ATTRACTIONS OF HIGH CLASS WANT TO COME TO FAIR

The state fair management will be able to take its pick of big, high-standard entertainments this year, B. W. Wiley announced last night. And the management will not have to go far after them. They are already making overtures to the fair commission. In Mr. Wiley's experience there never was so many really first-class attractions looking for summer dates as there are right now.

The management already has letters from vaudeville, hippodrome and rodeo performers asking what chances they have for giving their "stunts" here next October. One of the letters was from the management of motion picture and riding fame, Conners had charge of the western games here one at one and put on a good bill.

The number of inquiries about a merchants and manufacturers' display above the management of the fair will add this department to the serious side of the fair. This department will have separate a building. Three hundred letters have been sent to manufacturers of blouses and similar foodstuffs asking them to send exhibits.

FANNIE CLEMENTS WILL SPEAK THIS MORNING

500 GOOD ROADS

PEOPLE INVITED TO MEETING HERE

Secretary Lane Sending Out Big Bale of Letters to All Parts of State; Urges Payment of Dues.

The first gun in the campaign to make the annual meeting of the New Mexico division of the National Highway association, to be held here August 1-3, the banner convention, was touched off on time when Secretary D. B. Lane, secretary of the association, mailed 500 letters to members in all parts of the state.

Here is a copy of the letter: "To save you and the other members of this association money, we have had this letter multiplied, but that does not mean that it is not a personal letter or that the contents are not interesting."

"The fifth annual meeting of this association will be held in Albuquerque, August 1-3, to be held, inclusive. We want this to be the banner meeting of the organization's history. The local merchants have voted to raise \$500 for it. We want you, as a loyal member, to be there, and to bring as many others as possible. There are to be plenty of entertainment features and for the first time a truly constructive program will be given. It is hoped to have the association accomplish some real, tangible, actual results at this meeting. It will be worth attending."

"As you probably know, it takes money to put on a convention. The \$500 will not be available until July 20, and, consequently, the association will appreciate the payment of your yearly dues of one dollar at an early date, though of course they are not actually due until August 1."

"Write us whether we may have the pleasure of seeing you at the convention."

"Very truly yours," D. B. LANE, Secy.

"P. S.—A little money will work for the association in your section would help some."

MAKING BETTER TIME FROM LAGUNA TO ALBUQUERQUE

Owing to the greatly improved condition of the road automobilists can come from Laguna to Albuquerque in four hours. This was done by a car Saturday. While the speed is not exciting it is far better than the time it has taken to make the trip. The cars have been able to maintain on this stretch heretofore.

Gus Weiss brought word from Laguna that the western extension of Camino Real is in fine shape as far as the top of Saguaro hill. Valencia county. Bids for driving piling for the new bridge over the San Jose river at Laguna have been advertised for, he said.

Three gangs soon will be working between Saguaro hill and Gallup and the big grader is to be moved from Helen to that stretch of road. One gang is now working east of Gallup.

WILL WHITE SOX AND CUBS MEET AGAIN IN THE WORLD'S SERIES?

New York, June 8.—The recent rush to the front of the two Chicago major league baseball clubs has led to speculation as to whether Chicago will repeat itself and the Cubs and White Sox meet again in world's series play.

While the pennant clinching days in the American and National leagues still are far off there is no denying that the two Chicago clubs have exhibited a sterling form of ball this spring. Western fans recall the series of 1906 when the play of that year was confined strictly to Chicago with the White Sox under the leadership of Fiedler Jones, defeating Frank Chance's Cubs, four games to two.

Nine years have elapsed since the first and only world's series between the two Chicago clubs. The White Sox and today had two of the thirty players participating in those games are still with the "cub" club. Schulte is in the Cubs' fold and Ed Walsh on the White Sox roster. Jones, Hoffpurg, Thibault, and Reulbach are wearing Federal league uniforms; Evers is with the Boston Braves and Moran manager of the Philadelphia Nationals. Of the others, Donohue and Steinfeldt are dead; Frank Chance has been killed; and the league rosters account for a majority.

Patterson, who plays first base, will manage the team and play that position on the local team.

FANS READILY GIVE SUCCOR TO BALL CLUB; LITTLE MORE NEEDED

The affairs of the Albuquerque Baseball association took on a decidedly brighter hue last night when President E. L. Grose announced that the committee had gotten twenty-seven subscriptions each for \$50 in its paid canvass yesterday. The mark set by the committee was thirty subscriptions of \$50. It will be out again tomorrow.

President Grose said the committee found interest in baseball was living up. The brand of the national game that the team has been playing here has been responsible for this. The fans that tagged the Dukes Sunday and Monday, the fans realize, cannot keep on the job forever. In fact it looked as if they had loosened his hold yesterday.

The success with which the committee met is little short of remarkable in view of the fact that it followed so closely upon the heels of the state fair committee and evidently indicates that the people want baseball.
